

THE QUANTUM QUINTET

A PRESENTATION OF THE SLV CONCERT SERIES

WEDNESDAY, AUGUST 22
7:00PM

MONTGOMERY CENTER

Led by violist John Konigsmark, this unusual ensemble of five players, will present a program consisting of music by Joseph Labor, a now-forgotten but once famous composer of the early 20th century, an excerpt from Ravel's Mother Goose Suite, and for the heart of the concert—Franz Schubert's great quintet for string quartet and double bass—*The Trout Quintet*. This last features the lovely melody of one of the composer's most famous songs by the same name, and it will be sung by the first violinist who is also a fine soprano.
